

TAKE YOUR INSURANCE PRODUCTS ONLINE

Online Schemes

3rdmill's advanced interactive scheme platform provides a cost-effective way to deliver insurance products on the web. 3rdmill has been delivering schemes to Insurance Brokers for over 15 years. With our extensive experience in the industry we've developed a deep knowledge base in best practice scheme design and processes.

with you all the way

Renewal (optional)

Automatic renewal of policies can be incorporated into the process as an add-on. The platform will generate a reminder for internal staff, and also allow the customer to complete the renewal themselves online.

{{{ UPDATE BROKING SYSTEM

Payment

Payment gateways can be fully integrated into the scheme, or handed off to a third party website. The customer experience is secure and seamless. An automatic email is generated and sent to the customer, and internal staff as required.

Quote

6

5

Customers use a customisable online form to fill in their relevant details to obtain an indicative quote.

3

Scheme Cycle

4

Final Price

The refined price is calculated and displayed to the customer for final approval.

Indicative Price

The calculated price is then displayed to the customer after they have completed the form. At this point they have the option of progressing with the quote, or rejecting it.

Cover Form

A ratings engine generates the price of the quote based on further customer inputs. This engine can be customised to suit individual business and product needs. Customers may also be directed to a referral, whereby a broker is notified to contact the customer directly.

Features

- Automatic rating of risks
- Automatic issuing of policy documentation and invoicing
- Credit card payment facilities and offline payment options (including integration with premium funders)
- Electronic integration with leading broking systems
- Automated renewals

Our implementation approach

Are schemes right for me?

Insurance Schemes work best for brokers with niche product offerings, as this is the best way to stand out and be noticed on the web. Smaller, high volume transactions also work better where customers are more likely to buy online. Contact us for a free consultation, and to find out how schemes can grow your business

About 3rdmill

3rdmill is a full service IT provider for small to medium business across Australia and New Zealand, specialising in the insurance broking market.

From fully hosted Cloud services, through to Security, IT Cnsulting and all your online needs, 3rdmill will partner with your organisation to help you grow.
